5.2 Strategic Planning Committee

Committee Meeting Report - Chair Albaugh noted the amount that is paid in traveler's for LTC/SNF. We are spending about \$5500/day – which is the equivalent of about 17 residents based on the reimbursement received. Looking at what is the optimal number of residents in the LTC/SNF. Questions arose regarding what is the number of residents that could be managed with our own staff. He also addressed the 5-star rating component, Quality and staffing levels are a part of the 5-star rating. The staffing ratio has been increased in order to reach 5-star rating. Only a certain number of facilities can reach the 5-star. Part of the MMHD Strategic Plan is to achieve the 5-star rating, 8 hours per day of RN care. Vculek noted this is what is needed to get us beyond a 1-star. Albaugh asked what is attainable. We may need to look at our goals and strategic plan. Utterback asked if there is funding tied to a higher star rating. Vculek noted the \$5500 per day registry is LVN and CNA costs. Utterback concurs that we need to do the best for our community. Vculek noted that the higher the staffing is tied to increased quality. If we want to keep quality care we need more RNs. Hathaway said that we need to look at an optimum number. Ward and Lakey will do a study with WipFli to see what things would look like. Vasquez suggested that the board has a strategic planning workshop in the future to re-evaluate. Potentially in August. Beyer asked to have a specific session on what a 5-star meeting means – it will be discussed at Quality.

Albaugh also mentioned looking into Assisted Living and Home Health Care. Staff will do research.
