% of Gross Revenue Collected	61% YE	57%	PY Year End

1. Financially FY 20 started off strong then the Corona virus hit and Revenue ended down about 2.5 million under what were on pace for through the first 8 periods. We did receive 4.49 million from the Cares Act to help with the drop in revenue and added Covid related expenses (extra staffing, PPE, equipment, etc.). The drop in revenue and increased expenses are continuing into this fiscal year 2021 and when the pandemic is deemed over, there will be detailed reporting and a reconciliation process to return any unused funds. Health and Human Services are supposed to release instructions on reporting on August 17th and hold some webinars to field questions. Currently we are recognizing the Cares Act Funds as a grant given the current guidance but it could change, as I know there is debate surrounding that if it is replacing patient revenue it should be recognized like a QAF or Rate Range payment.
2. Cash on Hand is high due the Cares Act payment but should decrease as it is used and when we eventually go through the reconciliation process. This will take a while, as the final report due to HHS is July 2021 if there are funds unexpended after December 2020.
3. AR days increased as Partnership paid us the wrong DPNF rates and one of our main doctors became unlinked with Medicare. Partnership should be sending us a catch up payment and the paperwork has been submitted to relink the doctor in question.
4. Just a reminder that in the August or September financials we will have a large jump in depreciation, which will decrease our operating income. We are going to piece out the items based off AHA Estimated Useful Lives of Depreciable Hospital Assets.
5. Our auditors from Wipfli are scheduled to be here the week of September 14th. They complete our annual audit and our Medicare, Medi-Cal and Hospice Cost Reports. Cost Report filing deadlines may be delayed this year as all the 12/30 year end facilities had a couple extra months to file due to Covid. We are still waiting on guidance how the Cares Act Revenue is going to be treated for Cost Report purposes.

6. We have paid for 92.71% of the project on our USDA application which is attached in the packet. We are over budget on consultants and project management as the project took longer than we had budgeted those categories.

Statistics

1. Acute Days are down YTD 19%.
2. Swing Days are down YTD 31%. Part of the decrease in days is the drop in length of stay by 22%
3. Surgery visits are actually up 4.7% over the prior year.
4. ER visits are down 6.5%, which isn't surprising as a lot of our services have been down due to Covid.
5. Lab visits are down 19.7%, which is 8% higher than it was prior to Covid.
6. Outpatient Services are down 16.6% which actually better than they were trending Pre-Covid.
7. PT visits are down 13.3% but like Outpatient Services actually trending better than they were Pre-Covid.
8. Cardiac Rehab visits are down due to shutting that service down for a couple months.
9. Telemedicine is up 9% over last year as that program continues to expand.

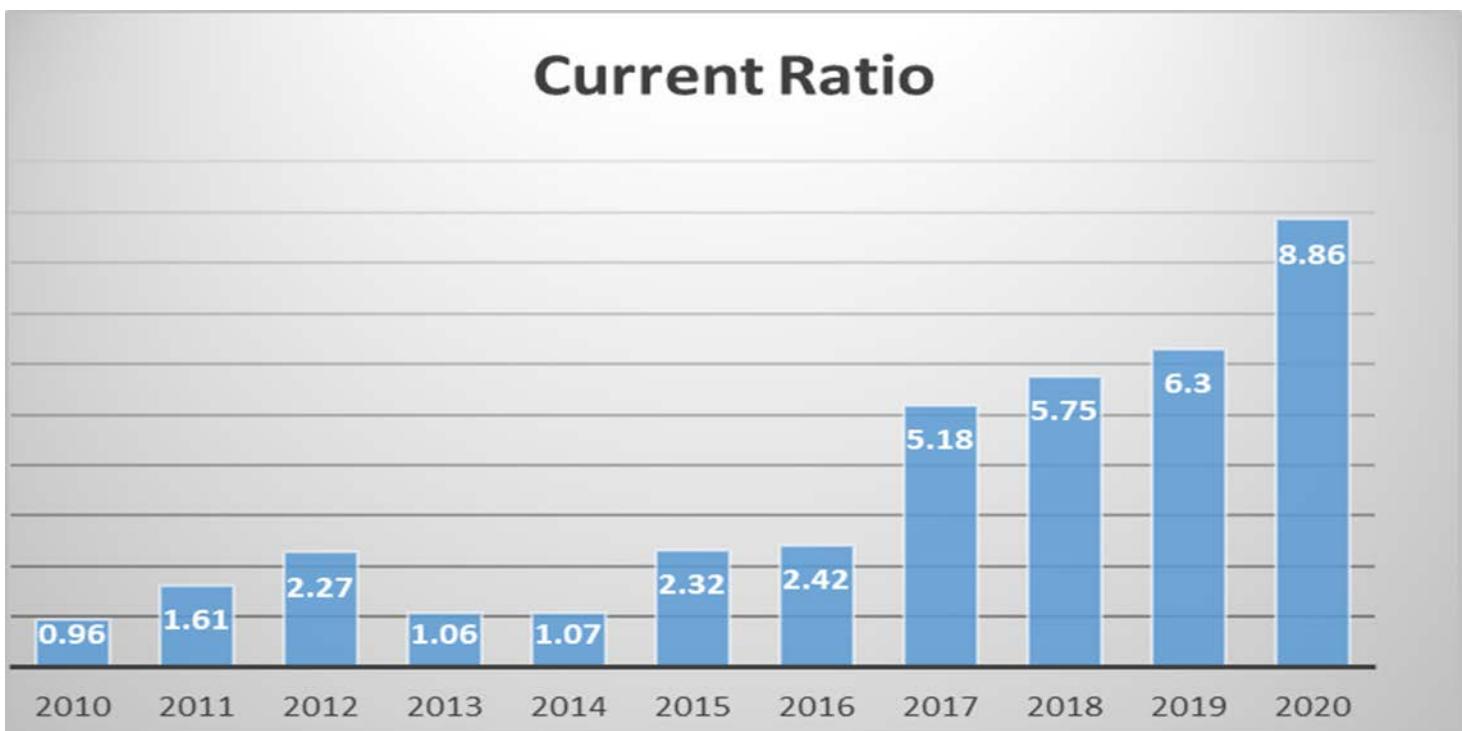

Income Statement

1. Revenue in June was down about 10% compared to our Pre-Covid average. This is actually much better than April and May which were down 26% and 23% respectively.
2. Overall Acute revenue is 20.4% and Outpatient revenue is down 5% compared to last year.
3. Contractuals are very low in June due to receiving HQAF payments and our interim cost report.
4. Miscellaneous Revenue is a negative as we had to move some items to non-operating from a prior month.
5. Salaries are up as our FTE's are up, and we've done wage scale adjustments in the clinical areas to be market competitive.
6. Supplies are up due to all the PPE we have to have on hand and the prices the manufacturers can now charge.
7. Acute/Swing travelers are down 35.6% compared to the prior year.
8. SNF Travelers are up 2.8%.
9. Ancillary Travelers are 6.7%.
10. Overall Traveler spend was down 155K compared to last year. I'm pleasantly surprised as we had staffed up in the ER and Respiratory for a few months due to Covid.
11. Utilities are up due the construction project.
12. Non-Operating Revenue is astronomically up this year due to the Cares Act funds and fundraising for the new hospital. These are anomalies and this year's financials will probably never be repeated.
13. Net Income is abnormally high due to the items mentioned below and a one year deal where we were paid some supplemental payments from Partnership for last year while receiving our new negotiated rates this year. As supplemental payments have been a roller coaster over the last few years we have gone to a cash basis and recognize the payments in the year they are received.

Balance Sheet

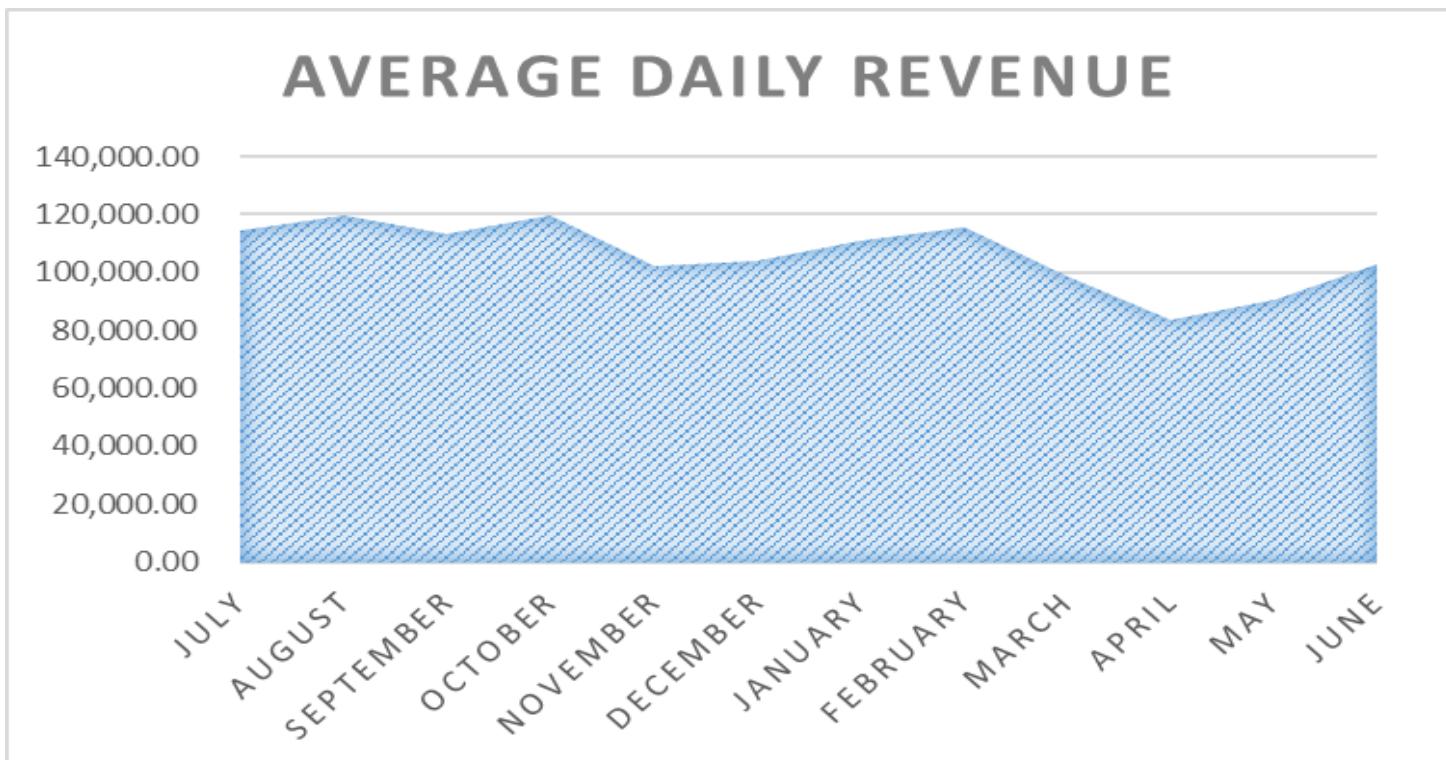

1. Cash is down as we had a down month in patient payments. This was expected with the drop in revenue over the last few months.
2. The Accounts Receivable balance is up with the aforementioned drop in collections, being paid the wrong DPNF rates and our primary doc becoming unlinked with Medicare.
3. CIP Hospital Expansion will keep increasing until the project is complete and we move it to Building and Fixed Equipment and start the depreciation process.
4. Accounts Payable was high due to the construction invoices that were not paid until July.

5. Our Current Ratio is 8.86. The current ratio is a liquidity ratio that measures a company's ability to pay short-term obligations or those due within one year. The CAH Flex average is 2.87. As you can see on the chart below we'd always been well below that until 2015.

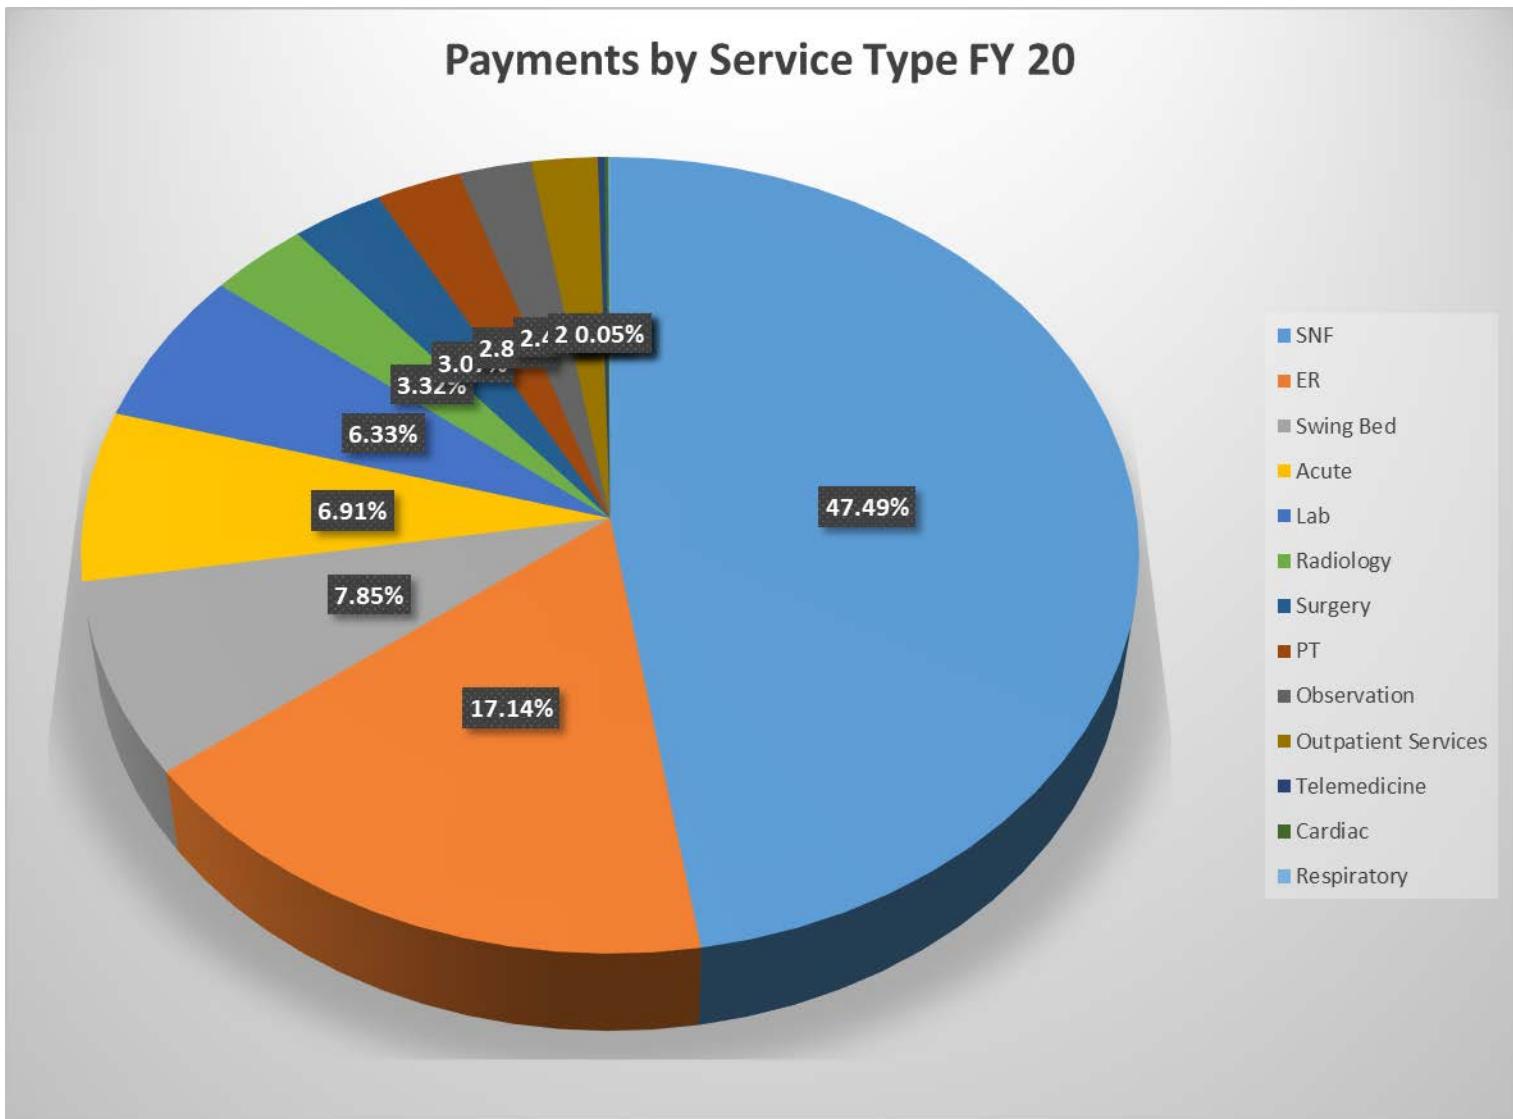

Miscellaneous

- Overall we collected 61% of gross revenue when we historically range from 55% to 60% so the business office had a great year.
- On the deposit tab on the average daily revenue you can see the Pre and Post Covid numbers.

3. At year-end I always like to show a break out of the Patient Payments by Service Type to show what percentage of payments come from the respective services.
