| | Next F | Finance Committee Meeting: June 29, 2022 | | | | | | |

Patient Access Representatives are every patient and visitors first interaction at MMHD. Representatives utilize office equipment such as computers, fax/copy machines, point of sale devices, scanners and a multi-line phone system. Representatives are responsible for obtaining and recording accurate information to assist in clean billing processes that will ensure a timely, maximum reimbursement. Representatives check paperwork to certify that all necessary information is included before scanning orders into the patient's electronic medical recordwhich will be used by clinical staff and during the billing process. Since Covid-19 precautions have been put into place Patient Access is responsible for staffing the main entrance to screen incoming patients, visitors and employees for any potential covid symptoms.

Representatives use the patient's demographics to determine insurance eligibility and patient's out-of-pocket obligations at time of service. Some services are 'cleared for scheduling' by a Patient Access-Scheduler once active eligibility has been determined and financial obligations are secured. All representatives have received 'Up Front Collections' training and are able to collect and process: cash, credit card and check payments. Any co-pays, co-insurances and/or deductibles collected are put into the deposit. The NOC shift prepares all forms of payment and 'remittance advice' reports for the Patient Access Lead to post to personal patient accounts the following day.

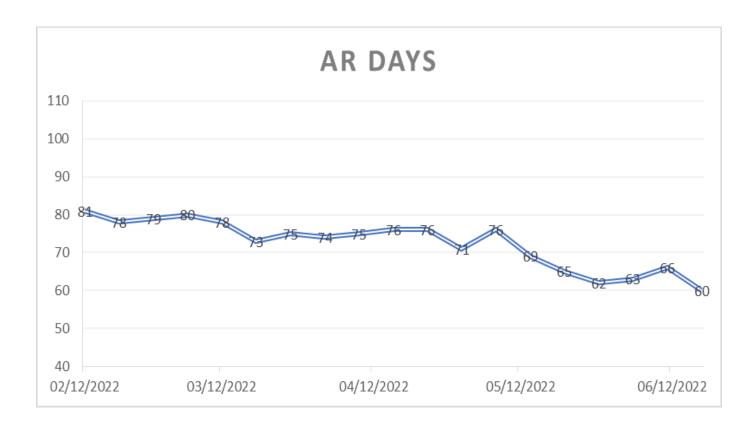

Depending on the service to be rendered, Patient Access will follow certain rules set by each specific payer type in order to avoid a payer denial. Representatives deliver and obtain required forms, get insurance pre-authorizations, submit Treatment Authorization Requests, start Inpatient Utilization Reviews and initiate Work Comp claims. Patient Access also runs compliance to check for medical necessity on outpatient orders when patients have Medicare as their primary payer. This avoids write-offs for failure to discuss Advance Beneficiary Notices with the patient. For outpatients without coverage: representatives will provide an estimate and request payment up front. Those that are unable to pay in full are required to pay a deposit of 25% of those charges and a representative will assist them in filling out a payment contract. Patient Access will schedule an appointment with our Financial Counselor for patients that require urgent services and are unable to pay the minimum amount due. Private pay patients that receive care in our Emergency Department are offered the opportunity to allow a Patient Access Representative to apply for Presumptive Eligibility through Medi-cal on the patient's behalf- if approved, it provides immediate coverage.

All representatives are cross-trained to understand billing. They are able to read an 'Explanation of Benefits' and educate patients on how their claim was processed by their payer so that the Patient Access department can successfully collect payments outside of the Business Office hours.

Business Office Finance Committee Report

The Business Office department is responsible for submission for all insurances, for all patient accounts. We are responsible for all the follow up for those accounts as well. The Business Office is also responsible for Patient Financial Counseling, self-pay billing, the hospital deposit, and the posting of those payments. Participates in the yearly audits from our outside audit agency as well as our yearly audit for Medi-Cal.

Over the last year the Business Office has worked hard to bring our AR Days back down through the COVID pandemic as well as having a brand new clinic and waiting for Medicare and Medi-Cal approval to drop bills has been challenging. The highest our AR Days were 86.46 was in January of 2022. We have brought them down to 60.47. Utilization Review has a more streamlined process and more communication between departments helping get higher dollar claims paid. We are working to get our AR Days to 55 or under which is in line with California Critical Access Hospital Flex Monitoring Team averages.

Health Information Management Finance Report

HIM handles the coding for ER, Lab, Radiology, Physical Therapy, and SNF. It also coordinates the sending of information to Atos who codes the Inpatients, and some Surgery. When the codes come back from Atos, HIM inputs them into the account so bills can go out the door. In addition, they maintain the medical records for all patients that are seen at Mayers Memorial Hospital District. This includes scanning and indexing documents that do not automatically populate to our electronic database. There is still a good amount of paper documentation that needs to be scanned into the EMR system. The HIM department also completes quarterly OSHPD reports, Cancer Registry reports, Birth Certificates, Blood Utilization reports, Genetic Screening for CDPH, Blood Utilization reports, Records Releases and Peer Reviews. The department also purges records that are beyond the records retention guidelines of 10 years.

HIM also prints and works portions of the CRC edit report (delinquent billing report by Error) on a daily basis. This report shows accounts that are held up before billing can take place and the reasons. The HIM department works on the accounts that are held up for coding, occurrence span dates and charts that are needing a completion date added. Once the errors are fixed the accounts will then drop for billing. Working this list daily keeps the patient encounter to coding to billing workflow smoother for a quicker turnaround to have lower AR Days.

Finance Notes May FY 22

| Summary of Financial Ratios | | | | | | | | | | |
|------------------------------|-------------|------------------------------------|-----------------------|--|--|--|--|--|--|--|
| Ratios | Period | YTD or Average where Applicable | | | | | | | | |
| Cash on Hand | 264 | 240 | Average PY | | | | | | | |
| Net Income | 213,164 | 505,772 | Average Monthly FY 20 | | | | | | | |
| Current Ratio AR Days | 31.54 65 | 61 | N/A Average PY | | | | | | | |
| АР | 526,815 | 501,619 | Average PY | | | | | | | |
| Daily Gross Revenue YE | 127,986 | 114,713 | Average PY | | | | | | | |
| % of Gross Revenue Collected | 75% | 62% | PY Year End | | | | | | | |

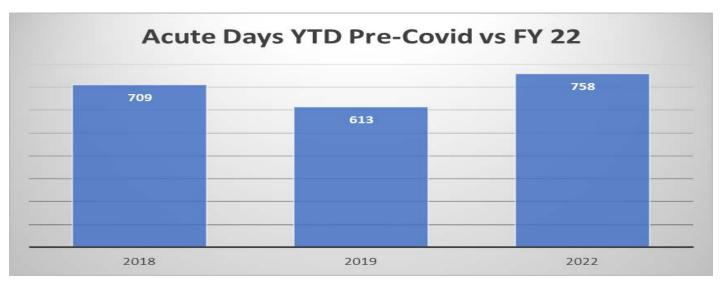

- 1. AR Days are down 60 as I'm writing my notes and were 65 at the end of May as we had a very strong month of Patient Payments at 3.8 million.
- 2. Cash on Hand remained high but will dip in June as we paid our interim cost report settlement. In July it will decrease as well when we buy the lodge.
- 3. Net Income is a positive as we had a large jump in Non-Operating Revenue as we recognized the 1.1 million from our Provider Relief Funds. Operating Expenses were 3.6 million for the month as we booked and paid a lot of the EMSA/SNAP nurses.
- 4. I've worked with Noridian to wrap up our FY 20 Cost Report Review. We have a 94K receivable that should be coming within the next month.
- 5. The Retail Pharmacy had a great month compared to last May. We have the consultant scheduled to be onsite next week.
- 6. Our annual audit is scheduled for the second week of September. Starting in July there's 100's of reports and documents we need to start preparing for the audit and cost reports (Medicare, Medi-Cal and Hospice)
- 7. The RHC is a positive YTD as there were a lot of charge corrections from prior periods that the billers are finding as now that we are linked with Medicare they can finally drop those bills. I'm frustrated with OCHIN on the poor initial set up and support we've received.
- 8. AP and I are working to try to get timecards and corrections on about 1.5 million dollars' worth of invoices that will hit in the June financials so it will be rough period.
- 9. The lodge is set to close on July 15th. The only outstanding item is Alex is going to go verify all agreed upon repairs are completed.

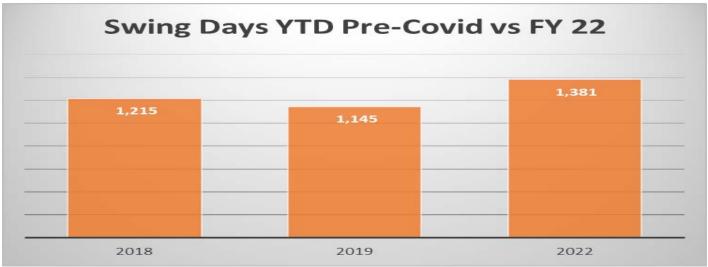

Budget

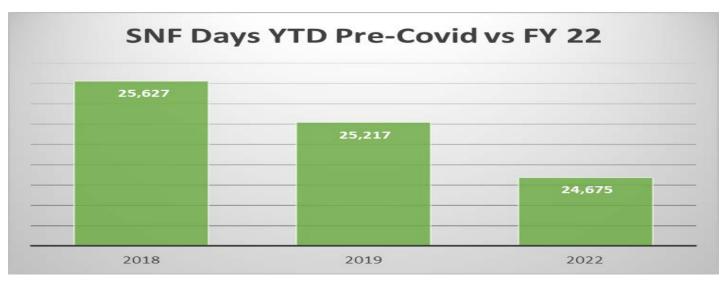

In creating the budget for FY 23 I've analyzed from 2016 to the current year so I'm almost working with seven years of data. I have a Pre-Covid Average, Covid Average and a blended comparison over the seven years. Budgeting has been more challenging than normal over the last couple of years as historical averages haven't been as accurate as they have been prior. I've put together what I consider conservative budget with the data and inflationary trends. I'm assuming of a large reduction in Covid hospitalizations which should translate into a large reduction in traveler costs. Fortunately, we have a full year of Rate Range payments and our HQAF payment so we should end the year in a strong positive position.

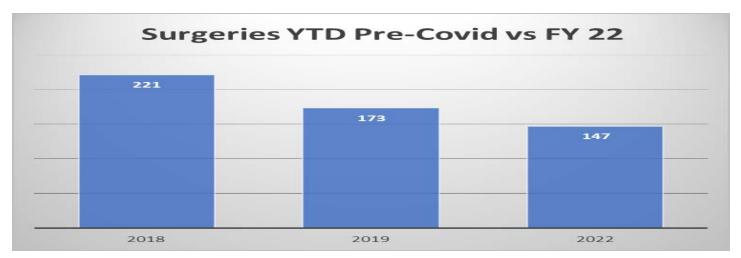

Statistics

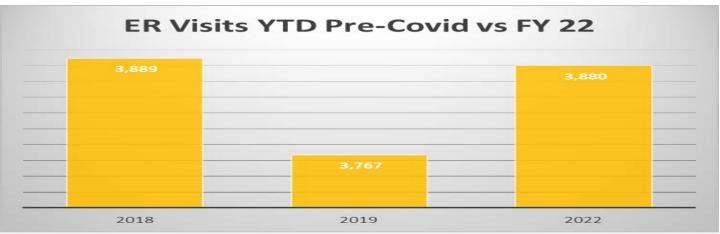

1. As requested, I've made charts to compare our volumes to pre-covid levels.

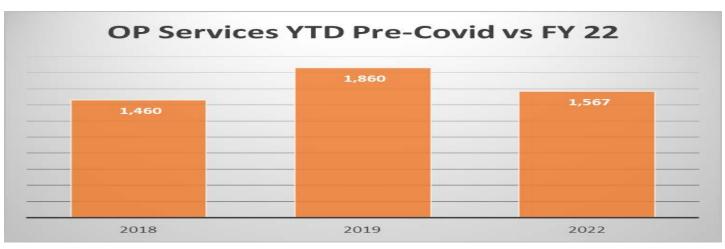

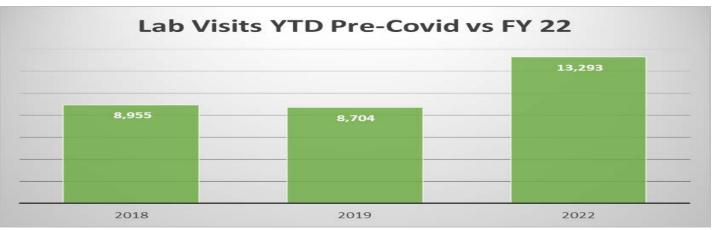

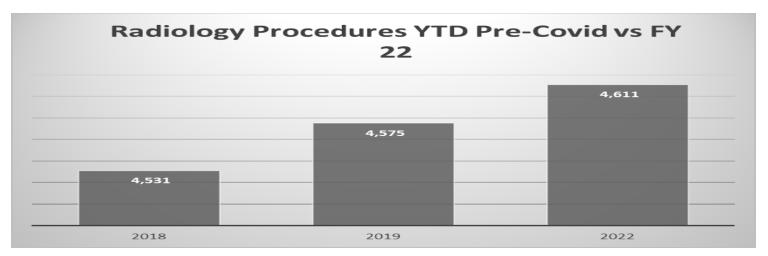

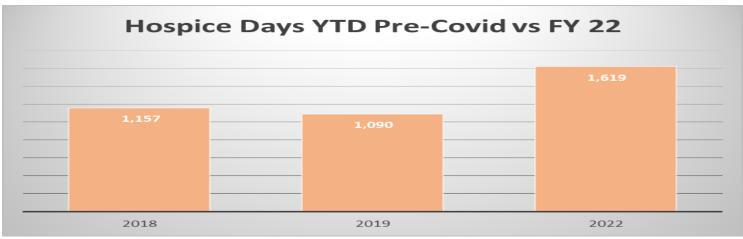

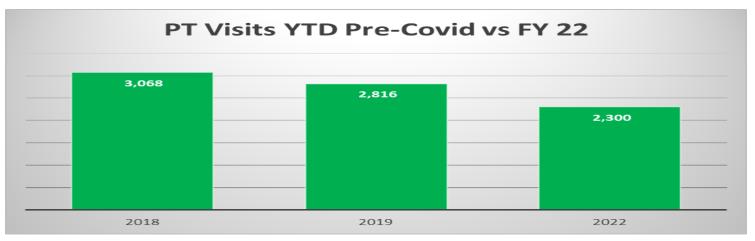

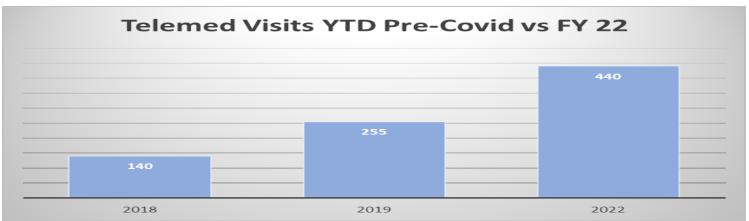

Income Statement

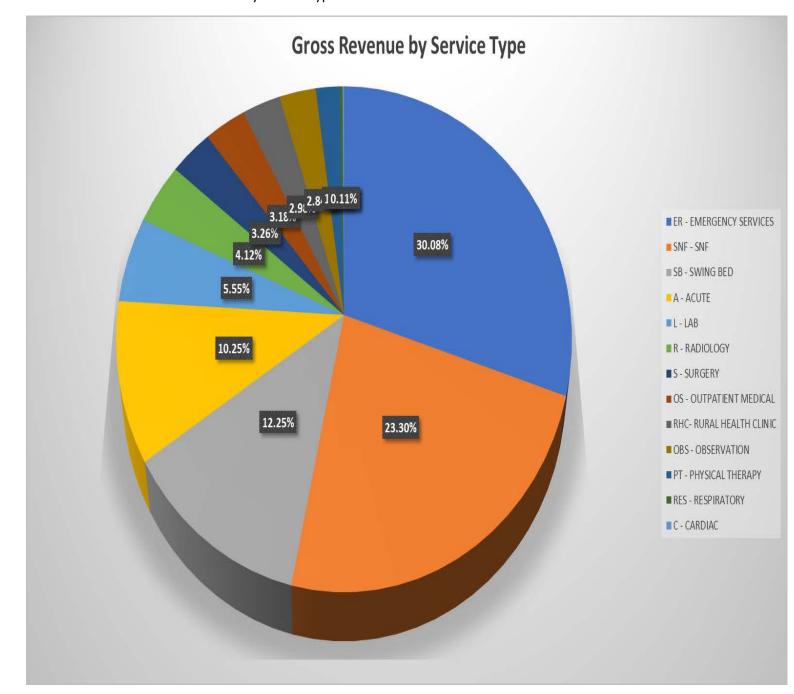

- 1. Acute Revenue is down due to a reduction in Acute and Swing days in May compared to earlier in the year when we had a large bump due to covid.
- 2. SNF Revenue is up as our census is slowly climbing and we had 269 days more than our average for this year.
- 3. Outpatient Revenue is up as we had an increase in ER (up 47), Surgery (up 7), and PT (up 33).
- 4. Contractuals are up as we have received all our supplemental payments for the year. This month is a good look at what contractuals look like as they are at 39.4% of our gross revenue and we collect 60 to 61% of what we bill. Next month these are going to be high as we will book the Medicare repayment on our interim cost report here pretty much the inverse of when we receive a Medicare/Medi-Cal settlement that decreases our contractuals. If anyone wants to meet and go over contractuals I would be happy to as that's the most common cause of questions and issues for hospital financials.
- 5. Productive and Non Productive Salaries are up YTD due to pay increases to keep up with the labor market.
- 6. Benefits are up YTD due to price increases enacted back in January. Early indications are an increase of similar size for next year if we keep our same package.
- 7. Supply Costs were averaging a 10% increase prior to Covid and have been a horrible combination of shortages and inflation driving our increase to 24% this year.
- 8. Pro Fees are up due to price increases to Envision. Next year this should decrease as we will staff inhouse and some of this cost will go to wages as two of our ER docs are employees.
- 9. Travelers overall are up. The SNAP/EMSA nurses through the state are hitting in Other Purchased Services due to how I'm tracking Covid expenses so I can split them out easier on the reports we do for CMS every six months. As mentioned above we have 1.5 million in invoices that we have requested timecards and corrections that aren't booked yet.
- 10. Repairs and Maintenance are up due to the clinic and laundry facility repairs.
- 11. Insurance is up due to rate increases on the property insurance side due to the market and past claims.
- 12. Other is up as the new pyxis monthly maintenance fees are being booked here. Historically we've had them in Other Purchased Services. Either way is technically fine but I will probably do a journal entry at the end of the year to make it in line with past years.
- 13. Bond Repayment Interest is up as we have actually booked the interest vs past years where we waited until the end of the year as there are a lot of moving pieces with four loan accounts that didn't match the existing loan schedules as the loan wasn't fully drawn.
- 14. Rental Lease is down as we purchased beds vs renting beds long term which is the more expensive option.
- 15. Non-Operating Revenue is up due to booking the Provider Relief Funds as mentioned above.
- 16. Net Income will take a big hit next month due to EMSA invoices and higher contractuals with the Medicare Repayment. We will still have a positive bottom line which is better than 51% of hospitals in California. A lot of districts had a rough year due to changes in the timing of the Rate Range program and all the Covid expenses endured throughout the year.

Balance Sheet

- 1. Cash is down as we paid out a lot of the EMSA invoices.
- 2. AR is coming down as we had a great collection month
- 3. The County Treasury Receivable is a negative as we received more then we anticipated using the model from the last five years.
- 4. The Reserve for Uncollectibles goes down as the AR goes down.
- 5. Accounts Payable could be very large at year end depending where we are at on processing the EMSA invoices.
- 6. Provider Relief Fund Deferred Revenue is zero as we recognized that revenue.

Miscellaneous

- 1. You might want to look at the charts tab as the Acute/Swing and SNF Days are interesting to see the variances from year to year. Also, ER is interesting as we always have a drop in visits in April.
- 2. On the Collections vs Obligations spreadsheet, you have the ability to compare this year to prior years back to 2015. Therefore, I've never added this as a tab to the spreadsheet with the Income Statement, Balance Sheet, Deposit and other tabs.
- 3. Below is a chart for revenue by Service Type YTD.
